Pompe circulatoare cu rotor
umed pentru sisteme de
incalzire si sanitare
Seria TLC

Engineered for life

ITT

Lowara

TLC - TLCB - TLCSOL - TLCK SERIES

Pompe circulatoare filetate, cu rotor umed, pentru uz rezidential, instalatii sanitare si sisteme de incalzire.

CONFORT RIDICAT, FUNCTIONARE SILENTIOASA

Nivel de zgomot redus, datorita constructiei cu arbore si rulmenti din ceramica.

INSTALARE SI INTRETINERE USOARA

Timp scurt la instalarea pompei

- prin simpla deschidere a dopului de aerisire amplasat superior si central in carcasa, lichidul va umple circuitul, mai repede si pompa va ajunge curind la conditiile de functionare.
- includerea in motor a cutiei de borne, nu numai ca reduce spatiul necesar dar si confera instalarea si conectarea mai usoara a pompei.
- dopul de pe partea superioara a carcasei confera acces direct la arborele motorului pentru o deblocare usoara utilizind o simpla surubelnita.

DOMENIU LARG DE UTILIZARE

Arie mai buna a performantelor

Domeniul pompelor circulatoare tip Lowara, filetate si cu rotor umed pot satisface cerintele unei inaltimi de pompare de pina la 12 m.

PRIETENOASE CU MEDIUL

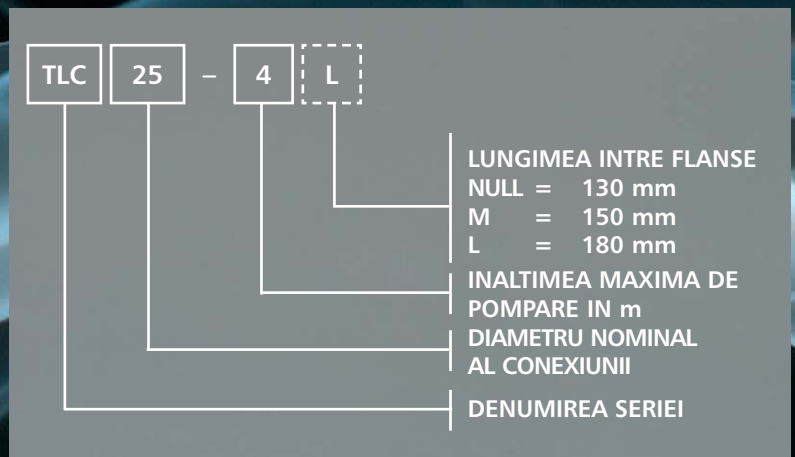

Viitorul este verde

Cu introducerea noilor modele de pompe tip TLCSOL si TLCK, Lowara doreste sa sustina utilizarea energiei alternative cum ar fi cea solara si geotermala.

ACCESORII

La cerere, puteti comanda

- scut de izolare
- racorduri
